

Ordinarily I make no mention of them because they are so scarce and I feel I must keep the few copies of Oswald In New Orleans for those of really serious interest. Although it was an original ~~paper~~ reprint edition at 95¢ I have to ask \$21.00 for these, what it costs to replace them. I did not print it myself. If you decide you have this much interest in the book and get one, I'd prefer that you make no mention of the existence of these few because I do want to keep them for those with serious interest. After that there will be xeroxes only. HW 1/14/75
